2016 Venue Confirmed!

Join us at the Fairmont Banff Springs Hotel

October 2– 4, 2016

www.uptechbanff.com

www.midtechbanff.com

Join us for the UpTech & Midtech Oil and Gas Summit and get a fresh perspective on how to optimize your company's oil and gas operations.

No matter how efficient your oil and gas operations are, there is always room for improvement. Often, the day-to-day challenges of managing people, systems and operations leaves little time to keep informed on the latest technology and innovation available. You need access to this information to run your operations as efficiently as possible.

Overview

UpTech Upstream Oil & Gas Summit is Canada's leading senior-level conference for the oil and gas industry. The Summit caters to experienced professionals and technical experts from junior, intermediate and large cap oil and gas producing companies.

UpTech delivers a unique mixture of:

- Strategic presentations and panels from industry thought leaders
- Technology and solution focused case studies
- Targeted research meetings with leading technology and solution providers
- Engaging networking opportunities with high profile industry peers

Who should attend?

If you're actively interested in sourcing new services, equipment, technology or software for your oil and gas operations then you are an excellent candidate to attend UpTech. Typical attendees include senior level representatives and technical experts who are responsible for the following areas:

- Engineering
- Reservoir and Reserves
- Drilling and Completions
- Environmental
- Facilities and Construction
- Exploration and Production
- Projects
- Research and Development
- Supply Chain and Procurement
- Operations
- Technology
- Geosciences

Spaces are still available but are limited so apply today and we'll confirm your status within 3 days.

Please Note: This offer is not applicable to suppliers of solutions. Suppliers of solutions can consider participating as a sponsor. Please email oliverthomas@quartzevents.com for further information.

UpTech has an oil and gas Producer focus

Reasons to Attend

The Conference Program

Our compelling educational program is led by a steering committee of experienced industry professionals. We ask them what topics, issues and challenges they are facing and we deliver a conference program that addresses these needs. UpTech provides targeted conference tracks so you can attend sessions that are relevant to your specific area of expertise. Conference tracks include:

Operations & Production

Facilities & Construction

Drilling & Completions

Business Intelligence & Supply Chain

Technology and Services research

A key element that makes the UpTech Summit so valuable to attendees are the one-on-one research meetings. This format presents the most targeted and time efficient medium to research the latest technology and innovation from leading oil and gas solution providers. The scheduled meetings maximize the efficiency of your time and allow for a more productive and relaxed meeting environment.

Networking

Unlike other conferences UpTech has a strict ratio of producers to service companies in attendance 3:1. This means that at the networking functions such as the gala dinner and industry lunch you will be mostly networking with peers from other producing companies. Only technology or service companies who sponsor the event are granted access. The true value of UpTech is that it presents a boiling pot of information, ideas and solutions, pulling together around 300 industry professionals and solution providers to push the boundaries of oil and gas operational excellence.

Efficiency

In challenging economic times for the oil and gas industry UpTech provides a great opportunity to stay on top of the latest industry trends whilst also saving company funds and your expense account when you qualify for the complimentary full access conference pass. The schedule of UpTech is also designed to save you time with only 2 days out the office including travel.

Producers tell us why UpTech is a 'must attend' conference

"This was the first time our company attended UpTech and it was beyond my expectations for two reasons.
 1) The networking opportunities with peers at different operating companies and vendor companies were exceptional.
 2) The relevance of the supplier offerings for our company needs."

- Procurement Team Leader, Drilling, BP

"I was hesitant when the "speed dating" concept was presented but after attending 8 preset meetings my opinion changed. Meeting with senior management in the one on one format allowed for open, honest and detailed discussions."

- General Manager, Drilling, Completions, Logistics & Land, Suncor Energy Inc.

"It was an extremely well organized event. We found some very helpful market information for our suppliers. Also, the one on one meeting was very effective use of our time. Will definitely attend or recommend peers to attend next year."

- Supply Chain Manager, Husky Energy

"The UpTech Summit was VERY well organized. Staff helped with logics at every step. Well done."

- Chief Reservoir Engineer and Manager, Reservoir Technology. Pengrowth

Producing companies who have attended previous UpTech Summits:

- ARC Resources Ltd
- Athabasca Oil Corporation
- Bankers Petroleum Ltd.
- Bellatrix Exploration
- BlackPearl Resources Inc.
- Bonavista Energy Corporation
- Cenovus Energy
- CHRONOS RESOURCES
- CNRL
- Condor Petroleum
- Connacher Oil & Gas Limited
- ConocoPhillips
- Crescent Point Energy
- Devon Canada
- Drake Engineering

- Suncor Energy Inc
- Syncrude
- TALISMAN ENERGY INC
- Twin Butte Energy
- US Oil Sands Inc.
- Verus Engineering Inc. / Encana
- World CPW & Petro
- Worleyparsons
- Sunshine OilSands Ltd.

Your Conference Pass

Why is my pass to UpTech free?

This relates to the element of the program where we coordinate one-on-one meetings with sponsors. Sponsors derive a great deal of value from this format and as a result they are willing to pay a premium investment that covers the cost of your attendance.

So what exactly is expected from me?

You are responsible to attend a series of one-on-one meetings with leading technology and services companies that are in a position to make your operations more efficient. Each attendee has designated meeting blocks spread out over the conference. During these specified periods we will connect you with up to 10 different sponsors for a 20-25 minute meeting. The one-on-one meetings amount to 25% of your scheduled time at the overall event. The remaining 75% of your time is spent in networking functions, keynote presentations and breakout sessions.

Please note: If your company policy prevents you from accepting a complimentary all access conference pass but you're still interested in attending, you can purchase a Producer Pass for \$495.00. Please email oliverthomas@quartzevents.com for further information.

Your complimentary pass to UpTech includes:

- Full Access Pass to the world class educational program
- Customized schedule to connect you with relevant leading solution providers
- 1 night's hotel accommodation at the Banff Springs Hotel
- Full onsite catering including
 - 2 x Drinks Receptions
 - 2 x Full Buffet Breakfasts
 - 1 x Lunches
 - 1 x Gala Dinner
 - Refreshments and Snacks throughout the day
- Access to download the full book of conference presentations after the event via a secure website
- Fantastic networking opportunities with other high profile peers

Educational Program

Our diverse program includes all the following elements to deliver an in-depth, well rounded learning experience:

- Keynotes – Big names addressing key issues
- Peer-led breakout sessions
- Customer-led case studies – real world solutions
- Roundtable Discussions
- One-on-One targeted research meetings with solution providers

Thank you to the 2016 Steering Committee

Our compelling educational program is led by a steering committee of experienced industry professionals. The steering committee is subdivided and assigned to support specific conference tracks in line with their areas of expertise.

Uptech

- Greg Fagnan - Cenovus, Director of Production and Operations
- Mark Stephen - Bellatrix Exploration, VP Operations
